

Notes for Zoe's Site

Diana Lee

- Reiterating the title on each page
- Condense the terminology page
 - o Text can be smaller
 - o Don't have to scroll too much
- Evolution as example for clarity
- Replace the diamond with the title
- Make the toolbar thinner and the opacity → change it to black
- Make the history sections like the evolution
 - o Making them into multiple pages
 - o Making it look like they change → color box
- Gap in the styling is too big
- Making it look less "wordy"
