Project Title: Marilyn Monroe

Website I'd like to build this site to start as a single page, but then switch into scrollable page for her information

- Home Page/Introduction – For the intro page, I was planning to make an interactive page of an image of Marilyn Monroe. When selecting the “M” that will be in the front, I want to bring the audience to the page that shows the information about her life and career.
- Early life and discovery
- Modeling and Screen Persona
- Filmography
- Legacy
- Sources – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
